Timothy W. Fitzgerald
SPOKANE COUNTY CLERK

**SUPERIOR COURT OF WASHINGTON
COUNTY OF SPOKANE**

In re the Marriage of:

SIRINYA SURINA

Petitioner,

And

AARON MICHAEL SURINA

Respondent.

No. 17-3-01817-0

RESPONSIVE DECLARATION OF:
SIRINYA SURINA RE: RESPONDENT'S
MOTION FOR CONTEMPT HEARING

Sirinya Surina Declares:

1. I am the Petitioner and mother of David and Andrew Surina;
2. Rights to Children: I have made no such claims. I have never intentionally nor willfully said that the Respondent has no legal rights to our children. I follow the court orders to the best of my ability.
3. Joint decision regarding health care: To the best of my knowledge, I have notified Aaron prior to every scheduled, non-emergent medical treatment. The exception being when David's Counselor said she would notify the Respondent herself because they didn't want both of us to be present at the same time to avoid any non-harmonious environment. (Which has already happened at other medical facilities offices). I did attempt to notify Aaron through my attorney, but Ms. Hoover had just withdrawn. Aaron left no contact information nor update of his representation status until filing of this motion.

- 1 4. "Secret Medical appointments: I have not made "secret medical appointments." Spokane
2 Regional Health District has been treating my mother for a NON-COMMUNICABLE (non-
3 infectious and non-contagious) Tuberculosis afflicted lymph node, which was discovered
4 when Aaron arranged a biopsy of that lymph node, with Spokane Ear, Nose and Throat
5 clinic (Dr. Mitchell). SHRD informed me they would like to do IPPD screening test while at
6 the home and I agreed believing it was an emergent action, even though the nurse had
7 already told me my mother's affliction was not communicable. Aaron was notified of the
8 action the same day. (Please see the attached email.) I understand that SHRD does not
9 charge for this and screens people whenever they have an opportunity due to the growing
10 prevalence of TB.
11
12 5. "Residential Appointments: An SHRD nurse visits the house every day M-F to administer
13 prophylaxis to my mother. No "secret appointment" was made for our children. SRHD
14 viewed it as a convenient opportunity to do their job and administered an IPPD screening.
15 It was not an attempt to conceal anything. In fact, Aaron received notice the same day.
16 Results were not to be ready for 2 more days.
17
18 6. Counseling Appointments with Crystl Murray-Mills: There was no visit with David's
19 counselor on 1/03/2018. It is my understanding that notification is not required for every
20 appointment that is on a regularly scheduled, once a week, court-ordered, counseling visit.
21
22 7. Appointment without notice. Nothing was scheduled on 1/5/2018.
23
24 8. Delay in administering TB skin test. No one asked to screen the children until 2018. I
25 have always been told and I am still being told that my mother is non-contagious and non-
infectious. The screening was requested as something that SRHD prefers to do whenever
possible as standard operating procedure (Please see statement from SHRD physician,
Dr. Lutz.) Aaron's question is redundant and erroneously suggests that the children's
grandmother had a communicable form of TB. He has been informed over and over again
by competent authority that it is not communicable. Aaron continues to bully me and
competent medical providers and misleads the court in an attempt to gain primary
placement of our children. It appears he even had his work supervisor, who he says is
providing him a place to stay, and who attended the earlier hearings with him, interfere in a

government agency's duties and asked Dr. Lutz to report me as a child abuser to CPS.
(Please see statement from SHRD physician, Dr. Lutz.).

9. "Why was the Respondent not notified?" This question is also misleading and not based on the facts. Aaron knew of my mother's situation and even input it into David's Mychart health concerns for a visit where he, alone, took David for a well-child care visit (where he also asked the physician to do a thorough full body exam to check for bruising and evidence of physical abuse). (David's Health Record September 13, 2017) This was not 5 months after August 2017. Respondent did NOT notify me of this visit, I only learned about it when I picked up David's records 1/11/18.
10. Concealed appointments outside Providence's family primary care, alienation, secret "free" healthcare appointments, refusal to allow telephone contact initiated by David: These are misleading and are not based on the facts.
11. Share the Children Class: I am scheduled to complete the class January 20, 2018.
12. Petitioner's vaccination. Aaron's statement is based on the hearsay of "staff" and "nurses," is misleading, and is not factually correct. Fact: I have NOT been IMMUNIZED. I understand that immunization is administered in parts of the world where lung-involved TB is highly concentrated. It is given to infants to protect them from brain and spinal chord infections. Immunization is NOT RECOMMENDED for the USA. Aaron is fabricating statements to support his own purposes.
13. SRHD unaware of father's rights. The SRHD staff, who actually provide services to my mother, know about my situation. They also know that our children have weekly visits with their father, who again has misconstrued the truth.
14. Willful intent to conceal health condition. Aaron is dramatically overstating the risk of my mother's condition. I have not willfully concealed anything that is factual and true, which these accusations are not.
15. "No Contact." Once again, Aaron is wrong about facts. The court deleted the "no contact" portions in its Civil Restraining Order entered November 2017. However, I avoid, as much as possible, any contact due to the bullying and cruel treatment I continue to receive from Aaron at any opportunity he has to do so. There are times when my mother hasn't been available for the exchanges, but when I do the exchanges, I am not in

- 1 violation of the court's order. If Aaron has some mutually agreeable person(s) to act in his
2 stead for the child exchanges then at times I will be more involved in the curbside exchanges.
- 3 16. Change in primary placement. Aaron reveals what he really is aiming for with this
4 contempt motion when he asks the court to place our children primarily with him.
- 5 17. 6 month end date of maintenance. The court has not ordered "maintenance." The court
6 ordered Aaron to pay community household expenses to include the following: First
7 Mortgage; Utilities; Homeowner's Insurance; Property Taxes and the Hyundai automobile
8 payment. The court did not limit the time for Aaron to pay these household expenses.
9 Immediately selling our house will relieve a lot of Aaron's financial pressure. I have
10 prepared our residence for sale at the direction of a realtor who Aaron made contact with
11 prior to our separation. I understood that we were going to immediately put our house up
12 for sale. Now, Aaron has apparently changed his mind. A sale of our house would
13 provide financial relief to Aaron and me.
- 14 18. Deny Contempt Motion and award attorney fees. I ask the court to deny Aaron's motion
15 and award me attorney fees in the amount of \$1,500.00 for answering 3 separate motions
16 Aaron has filed with the court.

17 Signed at Spokane, Washington, January 17, 2018.
